### Scouting for Champion Drivers with Champion Mechanics...

ROK CUP International Finals 2005

Unique to this series – the Champions from each country will be represented at the ROK CUP International Finals, which was held in Italy for 2005.

More unique is that in addition to the Driver's Championship, a Mechanic's Championship and also Team Championship is also held concurrently, making this Championship one of the most rewarding for the winners.

For example, the winning mechanic in the Mechanic's Championship will be given an all expense paid training at the Vortex factory, Italy.
